EDUCATION

NHSS NANMINDA , *science*   2020 - 2021
CALICUT, KERALA   GPA: 83%

AWH ENGINEERING COLLEGE , *B TECH,CSE*   2021 - 2025
CALICUT, KERALA   GPA: 6.5

RELEVANT EXPERIENCE

ICT Academy, *Mern intern*   Sep-2024 - Nov-   • Learned MERN stack, completed a full stack
caicut   2024   project.

Luminar Technolab , *Python Full Stack Intern*   present
Calicut

Talrop, *Business*   june-2025 - jul-   • "Worked as a Business Executive, managing client
Executive Intern   2025   relationships and driving business growth through
Calicut   market analysis and strategy execution. Leveraged
                                                         MERN stack expertise to support digital
                                                         transformation initiatives and bridge the gap
                                                         between business needs and technical solutions.

PROJECT EXPERIENCE

Kurious Chef, *MERN*   • Developed a recipe discovery platform with
                                                       advanced filtering options, featuring a React-based
                                                       frontend and a Python/Django backend. Integrated
                                                       a SQL database and REST APIs to ensure efficient
                                                       data storage, retrieval, and seamless user
                                                       interaction

E-Commerce Website ,   • Developed a full-stack e-commerce website with
React   product listings, cart functionality, and secure user
                                                       authentication. Built the frontend using React,
                                                       backend with Node.js/Express, and integrated
                                                       MongoDB for product and user data management.

VELA SHAYA, *PYTHON*   • Designed and implemented a job portal
                                                       connecting service providers with customers,
                                                       featuring user profiles, reviews, and location-based
                                                       search. Built a responsive UI with Bootstrap and
                                                       React, supported by a Django backend for reliable
                                                       performance

CAMPUS & COMMUNITY INVOLVEMENT

Secretary, IEEE SB AWHEC   2022-2023

SKILLS

Python	Django	React	JavaScript
HTML	CSS	Bootstrap	SQL
GIT
